REPORTS.

"lie," because, if you do, you will confirm

Well, to return to our perusal of back Yet, there reports. We find that ours are much 23d, the following, as their FCLL report of Mr. J. O. Carter's remarks :

"J. O. Carter addressed the meeting in an management strain, in which he reviewed the arguments brought forward by the advocates of the Coolie Contract system. His remarks were listened to with attention, and frequently applanded."

And from that of Oct 10th :

"Mr. J. O. Carter wished it to be under-stood that what he had to say at the meeting, was not to be understood as the views of a newspaper with which he was connected."

Now, in view of the fact that the paper alluded to by Mr. Carter is the one in which the above succinct, graphic, and ungarbled report of his speech is given, it will be seen that the attribute of exceeding modesty is quite as well sustained as that of good manners-for they not only style themselves, on all proper and improper occasions, the "leading Journalists," but when they make a few remarks in public, modestly !- that is the wordumbly attribute to themselves the gift of eloquence. And, indeed, fired by the success of his Junior, the Senior-the Proprietor -- went in, next time, to make his bid for fame, and opened up his plan for peopling the Islands, by bringing South Sea Islanders, and giving them the canoes, apparatus, fishing grounds,-fand on the plantations. Truly, he did not mention how many there are engaged in fishing, or why or how their property is to be taken away from them, or whether they wished to be set at work on the plantations; and if they do, why they had not previously offered themselves. But then ticulars, but only sketches out magnificent things for lesser mortals to admire and carry out, - in like manner as genius sketches out the vague idea of what Mr. Carter's speech was, by the single word eloquent," in their report, without furnishing people with the sentences which fell from that inspired source, and which ought to go resounding-

"Through the corridors of time." We have to confess to it, that we did not report Mr. Carter's remarks in exactly that way, and rather think that people got about as good an idea of what he may have said, as though we had.

Turning from the report of Mr. Carter's remarks to those of Mr. Lyons-in their Mr. Lyons' services are sometimes emthe same paper, and that he is regarded a great and shining light, it is well to remarks at the meeting of the 28th of October:

"C. J. Lyons illustrated how the contract system resulted in bringing down wage Ridiculed the dreadful picture of our futur

Now, here is fullness for you. Here is richness. Phonographic reporting could go no further. Everyone must see at once the power and strength of reasoning with which Mr. Lyons proposes to impel the world on. Any one of Mr. Lyons's numerous lady admirers and friends who were not at the meeting, must see at a glance all the elegance of his diction, and the young speaker at Punahou, who addressed him and others, on the 10th of again: "In behalf of the Alumni of this estitution, of which you are the groances representatives, I bid you take courage. and not to despair;" and, again, to exclaim: "Gentlemen. I but re-echo the true sentiments of the Alumni, when I say you have rendered yourselves massratous. Surely, the young orator would, on the faith of the ungarbled report, be willing to continue in the strain with which he was then inspired: "We are proud of you, to-night, and we shall EVER be willing The word "garbled" is a good word, to trust the liberty of the press, and the interests of the Hawaiian Nation in voor hands." Just think of that, now!!!
